Plagiarism Verification Report from the Research-Scholar & the Guide

<u>(The scholar/guide has to give case by case explanation of significant similarities and to enclose that report along with this form.)</u>

After reviewing the plagiarism report generated by the DRILLBIT software dated _____
Analyzed document number:_____on the thesis/dissertation entitled_____

_____
by Ph.D./M.Phil./ M.Sc. Scholar/Student _____, ID No. _____, Department _____, it is found that the overall similarity index is _____ after exclusion of the self-plagiarism (published papers of the student/scholar from his research work – the details are mentioned below*) and within that similarity index there is essentially no plagiarism is involved. The quoted works in the thesis/dissertation are reproduced with proper citation and necessary permission (if applicable), and the thesis/dissertation is the genuine research work & writing of the student/scholar and not written by any third party. Moreover the thesis is not the reproduction of some self-publish papers prior to the research period of the Scholar/Student.

Moreover as the content of the thesis/dissertation is not submitted for any other degree, so it should be considered for further evaluation and award of degree by our University. In future, if significant amount of plagiarism is found in the thesis then the awarded degree may be liable to be cancelled.

Any Other remarks (if any):

Full Signature of the Student/ Scholar   Full Signature of the Guide

Date:

Note: The scholar/student and the Guide has to explain (in writing – add extra sheet if it is required) the similarities found in the report generated by the URKUND software are not cases of plagiarism.
